1. Installing the Moodle app:

- Download the Moodle app from your app store (available for iOS and Android). Install the app on your device.

2. Connecting to your Moodle instance:
- Open the Moodle app on your device.
- On the initial screen, tap the "Add a site" button.
- Enter the URL of your Moodle site in the text box: **https://forhumanity.dev/cert/**
- Tap the "Add" button.

3. Logging into your account:
- Select your Moodle site from the added sites list.
- On the login screen, enter your login credentials (username and password).
- Tap the "Log in" button.

4. Exploring courses:
- After logging in, you'll be in the "Courses" screen.
- Scroll up and down to view the list of available courses.
- Tap on a course to access it.

5. Interacting with course content:
- In the course screen, you can view course materials such as files, pages, and activities.
- Tap on a course item to open it.
- You can view resources directly in the app or open them in a compatible external app.
